

Greetings for the New Year from CCTC

Construction Compliance Training Center (CCTC) and The Hispanic Contractors Association de Tejas (HCAT) wish you and your family a **HAPPY NEW YEAR**.

As you shake off the remainder of that "holiday spirit" and prepare for new 2020 projects, CCTC is here for any and all of your **CONSTRUCTION SAFETY** needs.

Construction Compliance Training Center (CCTC)

CCTC was established by Compacion Foundation and The Hispanic Contractors Association de Tejas and opened in April 2014 to train, educate, and address occupational safety and health problems within the construction industry.

CCTC strives to provide the highest quality hands-on and classroom training possible. At times the demand for certified workers exceeds training capacity, or is required in remote locations. In these situations, our mobile training providers can quickly provide the required training.

- CCTC can schedule any safety training and/or help customize a job specific training for you and your workers.
- We can schedule training's 7-days a week; day and evenings; where dates and instructor(s) are available.
- Instructor can travel to your company or job-site for safety training and/or inspections.
- Assistance with OSHA Citations
